

Firestop

Fire Resistant, Industry Leader

BORAL Firestop is the market leader for interior lining fire protection and is used extensively throughout the world for commercial and residential construction. BORAL Firestop is simple to install, and is able to prevent the spread of fire from 30 minutes up to 4 hours depending upon the system applied.

BORAL Firestop

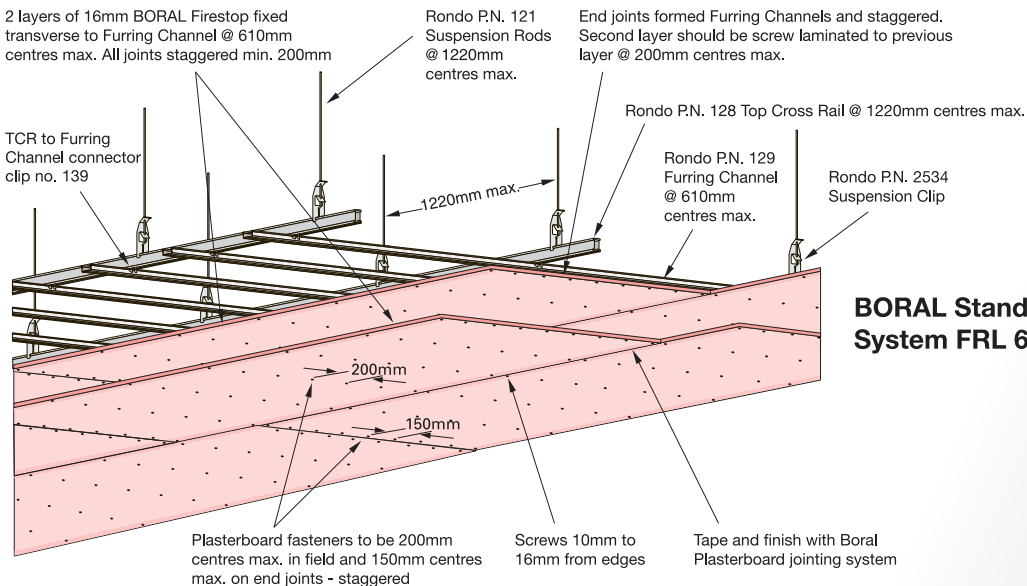

BORAL Firestop is ideal for lining walls, ceilings, beams, and columns in residential and commercial construction. BORAL Firestop is specially developed and tested for use in fire rated applications. The application of BORAL Firestop in single and multiple layers provides a variety of fire rated and acoustical performances.
