Concealed Lightweight Ceiling System

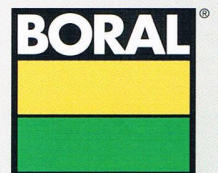

Recommended Installation Method

Note: Not recommended for external use.

Jointing System of Boral Homecheck

To achieve optimum results, it is recommended that BORAL three coat system to be used for jointing, using Paper Tape and BORAL Premium Dry Mix Jointing Compound. When thoroughly dry, sand lightly to a smooth finish using sandpaper. All coats must be finished to the correct finished width. (Kindly refer to BORAL Dry Mix Jointing Compound flyer for product application.)

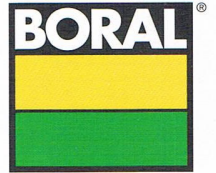

**Boral Plasterboard
(Malaysia) Sdn Bhd**

BORAL Premium Dry Mix Jointing Compound

- Quick setting time enables minimum efforts during mixing.
- Improves speed of jointing, enabling jointing to be completed in a single day.
