Build something great™

# Mini8 Plasterboard

Lightweight, Economical and Dust Free Ceiling Board

# BORAL Mini8 Plasterboard

The cleaner & healthier way to handle your ceilings. BORAL Mini8 Plasterboard is a 8mm thickness 4' x 6' plasterboard specifically designed for ceiling application for the residential and retail market.

## Why Mini8 Plasterboard for your ceiling?

### Mini8 plasterboard is very lightweight.

It is up to 50% lighter than alternative ceiling boards. Easy to carry and install by even one worker.

### It is healthy, easy to work with and less dusty.

The face and back of the plasterboard is lined with paper liner that helps to minimize dust during construction, providing a healthier environment for you as a builder or even as homeowners.

### Lower cost.

### It is easy to install & professional looking.

Builders can easily master the skills with our trainers and transform your project site into a professional and classy interior.

### Noticeable neat cut opening.

Openings for electrical and maintenance can be made easier as Mini8 Plasterboard is easy to cut and a straight fine cut is always achievable.

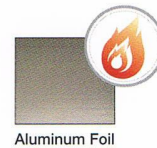

### Green & recyclable.

Plasterboard is a green product that can be recycled.
